

Subsidy standards for rooftop solar power generation

Can a multi-family building use solar energy as a credit?

Such policies allow customers in multi-family buildings to take advantage of solar generated from one meter on the building or allow electricity customers to subscribe to electricity generated from a larger off-site solar system--or even own it outright--and apply the solar generation as a credit on their electricity bills. References:

Is rooftop solar cost-effective?

Rooftop solar is increasingly cost-effective for home owners, business owners, and their communities. Reductions in technology prices, innovative financing, and growing networks of solar installers and financial partners all helped drive down the prices for household systems in the United States by 45% percent from 2010 to 2014 [2].

Should I add a solar energy system to my roof?

You may be considering the option of adding a solar energy system to your home's roof or finding another way to harness the sun's energy. While there's no one-size-fits-all solar solution, here are some resources that can help you figure out what's best for you. Consider these questions before you go solar. See the Spanish version here.

Why should you choose rooftop solar power?

Individuals and businesses have been attracted not just to the environmental benefits of solar power, but also to the ability to generate their own power and to the fixed and competitive price of electricity that these systems provide. Rooftop solar is increasingly cost-effective for home owners, business owners, and their communities.

Is rooftop solar going mainstream?

Rooftop solar is going mainstream. The falling prices and innovative financing structures mean that rooftop solar is more broadly available, and that the pool of customers comes from increasingly diverse economic backgrounds.

Who uses rooftop solar?

By 2014, U.S. businesses had installed more than 900 MW of rooftop solar across the country. These businesses include well-known companies such as Walmart, Apple, Costco, and Kohl's as well as many other department stores, consumer goods manufacturers, and car companies [7].
