

What are the worst photovoltaic panel brands

How can I avoid bad solar companies?

To avoid bad solar companies, asking the right questions is another great advice. This can help ensure that your solar panels will be installed correctly and prevent any surprises. Being honest is also important when it comes to solar energy.

What if I find a bad solar company?

If you find a bad solar panel company, make sure to let them know about it. Being honest is the best way to go when it comes to solar energy. Here are some questions you should ask the company you are interested in purchasing your solar panels from.

How do you identify a solar panel company to avoid scams?

These tactics may include persistent calls, scare tactics, door-to-door visits, or making unfounded claims about solar benefits. Companies employing such methods prioritize sales over delivering quality service. These are the red flags to identify solar panel companies to avoid scams. Are solar panels a scam?

As solar power gains popularity for its affordability, more homeowners consider installing panels. However, with increased interest comes a rise in solar scams. To prevent financial losses, it's crucial to spot red flags and research thoroughly before choosing a solar installer.

Do solar inverters have a Tier ranking?

Nope. Tier ranking (where 1 is the 'best' and 3 is the 'worst') is based on the "bankability" of a solar panel brand (aka how financially stable a manufacturer is), not its quality. And - tier ranking doesn't exist for solar inverters, only panels. Run far away from anyone who tries to sell you a "tier 1" inverter!

What are the most common solar scams?

Here are some common scams to be aware of: 1. Fake Solar Companies Some scammers create fake solar companies, selling solar panel systems without any intention of installing them. They may ask for a big upfront payment and then vanish without doing any work. 2. Identity Theft Scams
